

October 29, 2007

Dear Evans Family,

As part of our Community Service project, we are going to work collaboratively with our Home and School Association by collecting pop tabs for donation to the Ronald McDonald House. Please peruse the following valuable information regarding the Ronald McDonald House.

Many Ronald McDonald Houses work with local recycling centers to receive money for collecting tabs from aluminum cans - including those from beverage cans, vegetable and soup cans, and pet food cans.

Pop Tab Fun Facts

- The Ronald McDonald House Pop Tab Collection Program was established in 1987 by the Minneapolis/St. Paul Ronald McDonald House community.
- To date, more than 400 million pop tabs have been collected, generating more than \$4 million.

Pop Tab Measurement Equivalents

1 inch = 1 pop tab

1 foot = 12 pop tabs

1 meter = 40 pop tabs

1 lb = 1,267 pop tabs

1 km = 40,000 pop tabs

1 mile = 63,360 pop tabs

There will be a collection box or bag found in your child's classroom, so they will be able to deposit their pop tab donation any time. Once a week, there will be a school wide collection of all the pop tabs, so the donation can be made to the Ronald McDonald House weekly. We are hoping to make this project a continuous part of our Evans Community Service organization for years to come.

Thank you in advance for your consideration and time in collecting any pop tabs you have available to your family and friends. We look forward to helping the Ronald McDonald House raise as much money as possible.
